- Steve Bossi provided a brief summary of the North Bay Conceptual Plan.
- Christine Babla presented urban design concepts for the Sports Arena Village and street types.

Comments:

- Would there be enough parking with the Sports Arena Village Plan?
 - Christina Babla explained there could be parking structures as shown in Sketch 2 that are intended to provide parking that would compensate for the removal of surface parking spaces.
- How would traffic along Kurtz Street be affected with the Sports Arena Village plan? Would the Sports Arena Village concept be economically feasible?
 - Tait Galloway explained traffic and economics would be analyzed as part of the next steps in the process.
